GREENTECH INDIA

INTRODUCTION

GREEN TECH INDIA

We are a company that specializes in providing high-quality fire rated doors and chute systems for commercial and residential buildings. Our team of experts is dedicated to ensuring that all of our products meet or exceed industry standards for safety and performance. We have a wide range of fire rated doors, including steel and wooden options, that can be customized to meet your specific needs. In addition to fire rated doors, we also offer solar water heating systems. These systems are designed to be energy-efficient and cost-effective, making them a great choice for both residential and commercial properties. Our solar water heaters are easy to install and maintain, and they can help you save money on your energy bills. At our company, we are committed to providing our customers with the best products and services possible. Whether you're looking for fire rated doors or solar water heaters, we have the expertise and resources to help you find the perfect solution for your needs. Contact us today to learn more about our products and services.

Ensure Vision Panel is Fire rated

Intumescent strip and the smoke seal resist the passage of smoke and fire

TECHNICAL SPECIFICATIONS

ITEM	TYPES OF DOORS
	Fire Rated Doors (2 Hours)
Door Leaves	Constructed from 1.2mm (18 SWG) thick Skin pass Galvanized Iron sheet (Conform to IS 277) or from 0.8mm (22 SWG) thick Skin pass Galvanized Iron Sheet (Conform to IS 277)
Thickness	46mm
In-Fill	Rockwool/Mineral Wool/ Honeycomb Kraft Paper
Door Frames	Constructed from 1.6mm (12 SWG) thick Skin pass galvanized Iron sheet (Confirm to IS 277) or from 1.2mm (18 SWG) thick Skin pass Galvanized Iron sheet (Confirm to IS 277) formed to single or double rebate profile of size
Profile Dimension	0.143m X 0.058m (+/-0.03m)
Bending Radius	0.0014m
Vision Glass	
Material	5mm thick clear/wired glass Circular or Rectangular
Rectangular Dimension	0.2m X 0.3m
Coating	The door frames and door shutter are primed with Zinc-Phosphate Stoving Primer and finished with Polyurethane Aliphatic grade of epoxy paint as required
Powder Coating Material	Epoxy Polyester / Pure Polyester / Polyurethane
Powder Coating Thickness	60-65 Microns (Dry film Thickness)
Accessories	
Hinges	Material - Stainless Steel Ball Bearing Butt Hinges, Dimensions - 0.102m X 0.076m, Thickness - 3mm
Lock	Mortise Sash Lock with Lever Handles, Mortise Dead Bolt, Mortise Latch, Panic Devices etc. can be provided as required
Flush Bolts (Double Doors)	Concealed extended lever action flush bolts provided on the top of the door to the leading stile edges
Door Closers	Doors are made suitable to receive a large variety of door closers

GARBAGE CHUTE SYSTEMS

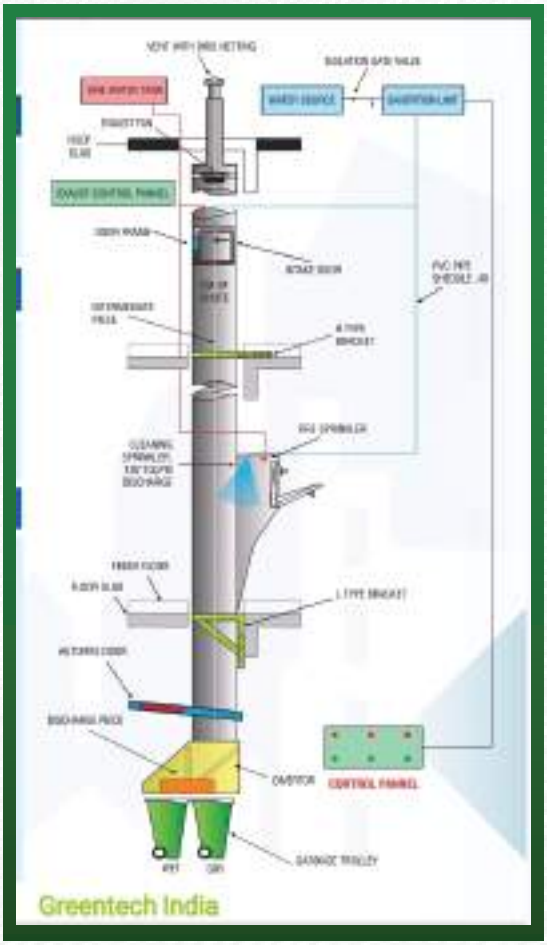

GARBAGE CHUTE SYSTEMS

Manual garbage collection in high rise buildings, commercial establishments & mails is a tough job & involves extensive use of manpower & elevators. To easy garbage collection, Garbage chute system are installed in such building where garbage is collected centrally at one single point & with easy

TYPES OF GARBAGE CHUTES:

- **Single or Basic Type Garbage Chute**
  Common duct for dry & wet collection
- **Twin Type Garbage Chute**
  Two parallel ducts for dry & wet segregation
- **Dry & Wet Segregated Type**
  Two parallel ducts for dry & wet segregation

MATERIAL OF CONSTRUCTIONS:

- **450 mm diameter** (Usually 1.0 mm thick)
- **450 mm diameter** (Usually 1.2 mm thick)
- **450 mm diameter** (Usually 1.5 mm thick)

MATERIAL OF CONSTRUCTIONS:

- **Stainless Steel** - Grade SS430 (Typical Garbage Chute)
- **Stainless Steel** - Grade SS430 (Non Rusting Long Life)
- **Stainless Steel** - Grade SS430 (In coastal Areas)

We can offer customized Garbage chute system in combinations from above available options in Type, Size & MOC depending upon the choice of our customers. We request you to get in touch for your requirements of Linen Chute System which can also be supplied in various combinations.

SOLAR WATER HEATERS

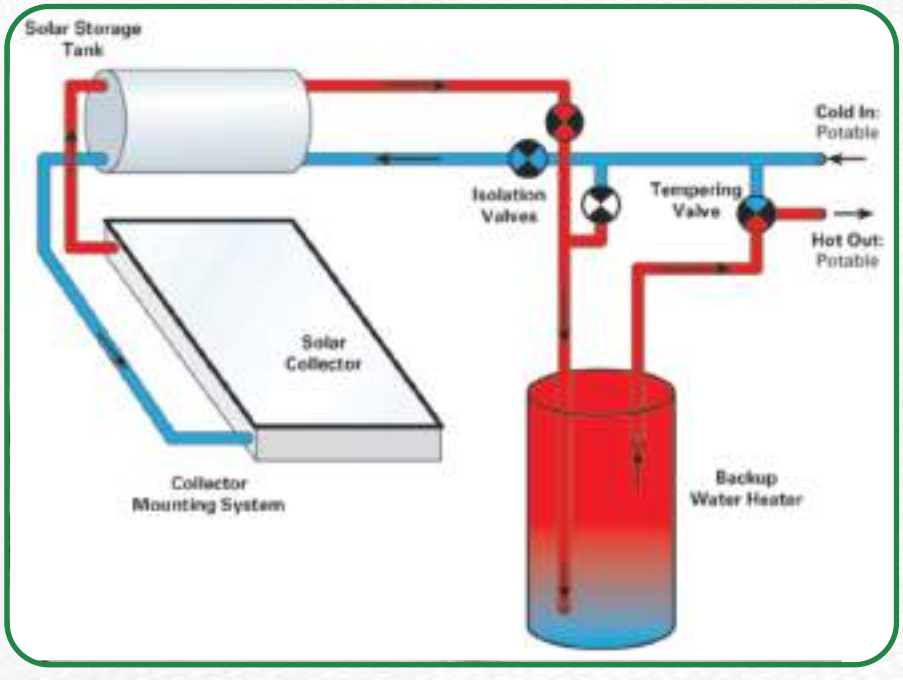

Our solar water heaters are designed to provide an efficient and cost-effective way to heat water for residential & commercial properties. Utilizing the renewable energy from the sun, these systems can help reduce your energy costs and your carbon footprint.

Our solar water heaters feature high-performance solar collectors that absorb sunlight and convert it into heat energy. This heat energy is then transferred to a storage tank where it is stored and used to heat water when needed. Our systems are designed to work seamlessly with your existing water heating system, so you can continue to have hot water even on cloudy days or during periods of low sunlight.

Our solar water heaters are made with high-quality materials, ensuring durability & longevity. They are also low maintenance, with easy-to-clean solar collectors, & have an automatic control system which monitor the water temperature & adjust accordingly.

Our solar water heaters are also customizable, we can design and install a system to fit your specific needs, whether it be for residential or commercial use. We also provide after-sales service and maintenance to ensure the longevity and optimal performance of your solar water heater.

Investing in a solar water heater is a smart choice for anyone looking to save money on their energy bills and help protect the environment. Contact us today to learn more about our solar water heater systems and how they can benefit you.
